

GE-2000MF

Fiber Optic Gigabit Ethernet Adapter

Fiber Optic Gigabit Ethernet Adapter

The AirLive GE-2000MF is designed for Gigabit Ethernet connection through fiber optic cables. It enables transmission distance of up to 550 meters with 50um multi-mode fiber. Fiber optic connection also protects transmission quality from any form of magnetic interferences.

Specification

- Compliant with IEEE 802.3z 1000Base-SX standard
- Transmission speed at Gigabit
- SC Connectors
- Up to 550 meters of link distance using 50um multimode fiber
- Supports PCI bus v. 2.2 in either 64 or 32 Bit, 66 or 33Mhz
- Provide Gigabit speed connectivity over Fiber Optic Cables
- 1000 Mbps Ethernet speed
- Reduces CPU interrupts
- IEEE 802.3x Full Duplex capable
- Advanced Software support
 - Microsoft: Windows 2000 / 9x / ME / NT/ XP
 - Linux Kernel 2.2 & 2.4
 - Novell Netware Server 4.x, 5.x, 6.x
 - DOS ODI, Netware Client
 - Solaris
 - SCO OpenServer
 - SCO UnixWare
 - FreeBSD
 - VxWorks
