

LFS-PCM Dongle-less

PCMCIA Fast Ethernet Adapter with Built-in RJ-45 connector

The LFS-PCM Dongle-Less is a 100/10Mbps Fast Ethernet PCMCIA adapter with one built-in RJ45 connector for cabling speed detection automatically. There is no need for a dongle. It supports hot swap card's insertion / removal feature to coexist with other PCMCIA cards.

Specification

Standard compliant :

- IEEE 802.3, 10BaseT for 10Mbps baseband . IEEE 802.3u 100Base-TX for 100Mbps baseband PCMCIA 1995 PC Card standard

Protocol :CSMA/CD

Media Interface : Built-in RJ-45

Host interface :32-bit CardBUS

Transmission speedl :

- 10 or 100Mbps Auto-negotiation for speed selection
- Fast Ethernet : 100(half-duplex) or 200Mbps (full-duplex)

I/O base address and interrupt number both assigned by Plug and Play system

Jumperless hardware

Temperature :32-131 degrees F or 0-55 degrees C (standard operation)

Humidity :10% to 90% RH (non-condensing)

Safety (EMC) meets FCC and CE standard
